# Cross over collaboration

Mavic™

## California born and bred

For 20+ years, we've been the go-to destination for built-to-order seating because we combine award-winning design with the fastest lead times around. Customizing is oh-so-easy with our industry-leading visualization tool – ChairBuilder™. We can build almost any specification you want, deliver it when you need it and offer a price no one can match. It's all part of our indie California spirit and drive to help you innovate and inspire.

## Everything and more

Mavic is here to prove that a jack-of-all-trades can be a master of all. Looks, features, function, comfort and more – there's so much Mavic offers in a single, light-scale seat that it crosses over into new territory. So when it's time to enable collaboration (wherever and whenever you need it), Mavic sits ready to provide a radical new way to work.

*Designed by Martin Ballendat*

## Stay on task

Zoom past the hurdles of getting together with a chair made for active collaboration. A swivel-tilt or weight-activated mechanism powers the 8-hour cushion on Mavic, helping you work as long as you need to. And the slim, all-in-one frame with airy tension mesh keeps you light on your casters so that you can shift with ease.

### Collaboration made comfortable

---

When meetings are long, ergonomics shouldn't make them feel longer, especially when you need to get together and get it done. Mavic innovates in ways never seen before. Its looks excite and comfort endures, proving what's possible when the leader in task technology infuses inspiration into the fast-moving world of collaboration.
