

Insight Family

Insight Family Swivel

Three different upholstery styles (Insight, Insight Decora, and Insight Mesh) define the Insight Family. Each presents a distinct appearance, but all offer the flexible comfort of elastomeric mesh backs. For Insight and Insight Decora, the mesh is overlaid with upholstery covers. Insight Mesh, on the other hand, is about its fully exposed mesh back. The Insight Family offers a broad range of size, performance, and aesthetic options, including mix or match seat/back/arm cap upholstery with coordinating or contrasting textiles and leather.
